

Reg No.: _____

Name: _____

APJ ABDUL KALAM TECHNOLOGICAL UNIVERSITY
B.Tech Degree S6 (S, FE) Examination December 2024 (2019 Scheme)

Course Code: HUT310

Course Name: MANAGEMENT FOR ENGINEERS

Max. Marks: 100

Duration: 3 Hours

The use of normal distribution tables is permitted.

PART A

Answer all questions, each carries 3 marks.

Marks

- | | | |
|----|---|-----|
| 1 | Explain the need for management. | (3) |
| 2 | Describe the philosophy of scientific management. | (3) |
| 3 | What are the different types of motivation? | (3) |
| 4 | List the various steps of Planning | (3) |
| 5 | Explain decision tree | (3) |
| 6 | Discuss decision making under uncertainty | (3) |
| 7 | Describe dummy activity concept | (3) |
| 8 | What is meant by project crashing? | (3) |
| 9 | What are the objectives of training and development | (3) |
| 10 | Explain the term market segmentation. | (3) |

PART B

Answer one question from each module, each carries 14 marks.

Module I

- | | | |
|----|--|-----|
| 11 | a) Explain the Implications of Hawthorne Experiments. | (7) |
| | b) Explain the system based approach towards the management. | (7) |

OR

- | | | |
|----|--|-----|
| 12 | a) Describe the relative importance of each type of skills to lower , middle and upper level managers. | (7) |
| | b) Explain management as a Process | (7) |

Module II

- | | | |
|----|--|-----|
| 13 | a) How do you differ between line and staff in organizational terms? | (7) |
| | b) Define organising and discuss its importance in organisations. | (7) |

OR

1200HUT310052403

- 14 a) Explain basic control process (7)
b) Define leadership. List any six qualities of an effective leadership (7)

Module III

- 15 a) A company is manufacturing 24,000 components per month by employing 100 workers in daily 8 hour shift. The company gets additional order to produce additional 6000 components. The management decides to employ additional workers. What will be production and productivity level when the number of additional employed workers are 30. (7)
b) Identify the internal as well as external factors of productivity for an organisation? (7)

OR

- 16 a) Define decision- making and explain the process of decision –making that affects the efficiency of the business decisions. (7)
b) Describe the key methods that can be used to make decision under uncertainty. (7)

Module IV

- 17 a) The following details are available regarding a project (10)
Determine the critical path, the critical activities and the project completion time. Calculate EST,EFT,LST,LFT and FLOAT of the project

Activity	Predecessor activity	Duration(weeks)
A	-	3
B	A	5
C	A	7
D	B	10
E	C	5
F	D.E	4

- b) What are the rules for drawing network diagram? (4)

OR

1200HUT310052403

18 a) For the given activities determine: (10)

1. Critical path using PERT.
2. Calculate variance and standard deviation for each activity.
3. Calculate the probability of completing the project in 26 days.

Activity	t_0	t_m	t_p
1-2	6	9	12
1-3	3	4	11
2-4	2	5	14
3-4	4	6	8
3-5	1	1.5	5
2-6	5	6	7
4-6	7	8	15
5-6	1	2	3

b) Differentiate between CPM and PERT (4)

Module V

19 a) What are the sources of recruitment? (7)

b) Explain briefly about the overall selection process. (7)

OR

20 a) What are the different quantitative techniques used in forecasting (7)

b) Define operation management and explain the need and scope of operation management in decision making process. (7)
